

C-TEC U.S. Military – Active or Veteran Scholarship Application

Application Instructions: please complete this application form on screen and print it for submission. All supporting information must be typed; **no handwritten materials will be accepted.** Form must be completed by applicant (not by office staff or parent or any other person or persons on your behalf). Most scholarships will be awarded for the beginning fall modules (generally starting in August or early September) for Adult Education Full-time Programs; if all scholarship funds are not awarded, then additional start dates will be considered. You may contact Christine Westbrook at: cwestbrook@c-tec.edu to find out if funding is still available after July 1. Application material should generally be submitted by July 1 of each year to the Application Review/Selection Committee, but you may still apply later in the year if application dates have been extended – contact Financial Aid at cwestbrook@c-tec.edu for more information. Scholarship availability is based in part on available funds.

Incomplete submissions may be subject to immediate disqualification. Scholarship payments are made directly to the school. A student does not need to be receiving PELL in order to qualify, but PELL funding will be applied before Scholarship funding. Scholarship funding is available based on funding availability and also will be applied only to direct costs for schooling (tuition, books, supplies, student services and credentialing costs). Work Keys testing must be paid for by the student at the time they are taken. Scholarships can be applied later to Work Keys testing for a student refund of the cost.
